

EDUCATIONAL TOUR

(SUSTAINABLE USE OF NATURE)
MY FARM & TILOO
EVERY WEDNESDAY

This tour is all about learning. MyFarm is a beautiful educational garden where you can see and do different kind of activities around sustainable farming. A learning experience for everyone! We take you through micro-gardening, perma-culture, learning labs and even to the soap factory and we will show you how amazing the nature works all together.

After MyFarm we will be visiting a project that focuses on solar drying and solar cooking, project "Tiloo" (meaning "Sun" in Mandinka), as well a beautiful initiative in The Gambia. They will give a demonstration in their workshop area and will prepare a delicious lunch cooked on solar.

Time: Every Wednesday, 10:00 we collect together at the Nature Shop. 14:00 lunch, +/- 15:30 back in Kololi.

Ask our lovely shop assistant for the costs, more information and to register for the tour. Also we recommend you to invite your Gambian friends for this tour; it is a learning experience for all! Ask our shop assistant also about our Gambian discount.
